Dear Friend Roxbury Sep^r 11-1832

My friend and Neighbour Charles Davis Esq has requested me to ask you to ship him the following Trees - he wants them to supply places where the frost killed them last winter - he therefore wants the largest Trees you have as if they are extra large he is willing to pay an extra price

say 12 Apples of your best winter kind. the newest and most effective many you have -
1 Smoke Tree or Venetian Shomach -
1 Snow Drop Tree
1 Judas - Tree

I intend writing you a long Letter soon - Mrs Hunnewell with the rest of our family are well I have been looking out for you or some of your family this way - if it was only to get clear of the Cholove - I hope sincerely none of your family or friends have suffer'd by it - we flatter ourselves that we may escape it in this section of the Country - not having any as yet - it is remarkable healthy here never more so - There is a rail road now making to Worcester and they go directly through my Farm from one end to the other - leaving about 50 rods on the river side and 80 on the road side taking 4 rods wide out of the Center & 150 Rods long - they say I cannot avoid it - and all I have to do is to make them pay as heavy damages as possible - but I shall not get half pay for the damage - as it will spoil the beauty of the Farm in addition to taking so many of my best Trees - and my Shubery cut all to peices - I will write you all about it as soon

as I know what is to be my fate. and how much damages I am to be allowed – they have already begun work. Please make my best respects to your Lady and family to whom Mrs Hunnewell desires to be respectfully remembered –

Yours with great respect

Jon Hunnewell
